

Non-Destructive Testing (NDT) Reports

The Non-Destructive Testing (NDT) Reports have moved into the OASIS Portal at the links below:

[NGAS Non-Destructive Testing \(NDT\) Report By Supplier](#)

[NGAS Non-Destructive Testing \(NDT\) Report By Part Number](#)

In the left-hand pane at the very bottom of the [OASIS dashboard](#) page, click on the Documents link. The Non-Destructive Testing (NDT) Reports can be accessed under the Additional Documents tab.

These links are password protected and an OASIS account is required for external stakeholders to access.

If you are a Northrop Grumman (NGC) Supplier with an issued vendor number and do not have access, please contact your NGC Buyer. Your NGC Buyer should then direct the request to OASIS administration support.

Thank you.
